ABOUT

I design and build clean, fast websites for small businesses, from single landing pages to full multi-page company sites and e-commerce storefronts. Based in Amman, Jordan, I work with clients across the region and internationally, delivering projects on tight timelines without compromising quality. I am actively expanding into AI-powered workflow automation (N8N, API integrations) to help businesses save time and operate smarter.

SERVICES

Business Landing Pages	High-converting single-page sites for products, services, or campaigns.
Multi-Page Company Websites	Professional 3-6 page websites: Home, About, Services, Contact, and more.
E-Commerce Storefronts	Product listings, shopping cart, and checkout-ready online stores.
AI & Workflow Automation	N8N pipelines, API integrations, and AI-powered business automations.
Maintenance & Updates	Ongoing content edits, bug fixes, and feature additions — quoted per task.

TURNAROUND TIMES & PRICING

Project Type	Timeline
Landing page (1 page)	3-5 days
Business site (3-5 pages)	1-2 weeks
E-commerce / Custom	2-4 weeks
Automation setup	~1 week

Service	Starting From
Landing page	\$150 USD
Business website	\$350 USD
E-commerce	\$600 USD
AI / Automation	\$200 USD

PAYMENT METHODS

Wise (TransferWise) · PayPal · International Bank Transfer (SWIFT) · Cash (local Jordan clients)
